RE: #2317 Fox River Papermaking Corridor Storm Water Project

The Fox River Papermaking Corridor Storm Water Project includes the storm sewer construction from the Green Bay Packaging Mill Site to the new stormwater pond off Angie Street. The project includes the installation of a new lift station at the northeast corner of Quincy Street and Chip Street. Brown County will be purchasing the pumps for the lift station directly and they are not part of this project. Alternative 'A' runs the storm sewer under the west side of Quincy Street to I-43. The design for Alternative B utilized a proposed easement from Georgia Pacific west of Quincy Street, but to date, Brown County was unable to secure the easement from Georgia Pacific. Therefore, the award will need to be based on the 'Base Bid + Alternative A'. If an easement becomes available prior to work starting, Public Works will work with the Contractor to construct Alternative B at the lower overall project price. The Tabulation Record / Intent to Award Documentation with the bid amount, and the Contractor for which the proposed work has been awarded, is attached. This portion of the overall project was estimated at \$6,613,000.

ACTION REQUESTED:

Award the contract to Dorner, Inc. in the amount of \$6,298,743.79 for the Base Bid plus Alternative A.
